Foreword

The Gap State High School is offering families the opportunity to purchase a school managed device under the CYOD program. This Selection Guide provides specifications and configurations for the devices offered in the 2023-2024 round of Choose Your Own Device (CYOD) at The Gap State High School. To submit your expression of interest, please click on the “Expression of Interest” link on the CYOD page of the school website.

The 1-to-1 Technology Program (CYOD and BYOD) offered by The Gap SHS is explained in more detail in the *The Gap SHS CYOD/BYOD Handbook* which is available on the school website. This Selection Guide should be read in conjunction with the Handbook document. Participation in the Student 1-to-1 Technology Program (CYOD or BYOD) is conditional upon participation in the Student Resource Scheme.

Both 3 and 4 year warranty options are available.

Again, please refer to the The Gap SHS CYOD/BYOD Handbook for any points of clarity regarding support offerings, device ownership, software, etc.

Acceptance of this expression of interest is dependent on students being either a current student or being enrolled for 2024 at our school.

FAQs

Q: When will I be invoiced for my selected laptop?

A: Invoices will be issued soon after the close of the expression of interest periods.

Q: Can I withdraw my expression of interest after the device has been paid?

A: Once an expression of interest has been paid for, we are committed to the order and as such we are unable to process a withdrawal. However, the device can be transitioned to a BYO and reset to factory settings.

Q: Can the school set use times for certain websites at home?

A: We are unable to set specific time frames for websites. It is highly recommended that families invest in a third-party internet filtering solution for their home devices while at home.

Q: Why can't the school state the final price of the device prior to invoicing?

A: Device prices available to the school are revised monthly. Factors such as supply chain, parts cost and demand influence the monthly prices. As such, we will only know the final price when devices are invoiced. Generally, final prices do not vary greatly.

Q: Can I make payment prior to the invoice being issued?

A: Payment cannot be made prior to invoices being issued.

Q: Are there any software restrictions on the laptop?

A: Yes. There are some programs that cannot be installed as they have been deemed unsafe for student use by Education Queensland. These include but are not limited to Steam, Discord and Bluestacks. This list may grow as we become aware of future programs.

Q. Can I purchase a device after the expression of interest close date?

A. Unfortunately not. We are unable to accept orders past the expression of interest close date.
