C09 Computer Lab

Launch +

About Launch

Launch is a student-led STEAM program (Science, Technology, Engineering, Arts and Mathematics) held at The Gap State High School in Brisbane, hosting various activities and events throughout the year.

We invite students from other Brisbane schools to attend our workshops and student led programs

PYTHON Coding

The Launch Team is excited to announce their first Python coding challenge.

Why learn to code

- Learn critical thinking and problem solving skills
- Unlock your creativity and self expression
- Gain the competitive advantage in school and the future
- Learning an internationally understood language
